Division Spectroscopies d'Électrons

FLASH INFO N°11 - MARS 2023 Spécial webinaire "Joachim Schnadt"

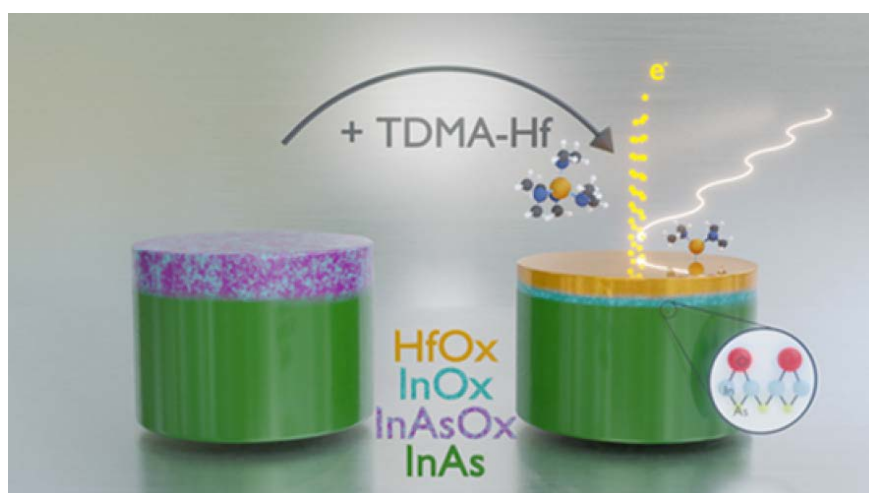

Dear Colleague,

The Electron Spectroscopy Division of the French Vacuum Society cordially invites you to participate to the 4th edition of its scientific webinars, to be held Wednesday, April 5th, 2023 at 10 am, on the topic below :

"Ambient pressure x-ray photoelectron spectroscopy : basics and its application in the investigation of thin layer growth by atomic layer and chemical vapour deposition"

Présenté by:

Joachim SCHNADT (Department of Physics, Lund University, Sweden)

CV and abstract

Free registration, please just fill in the form by clicking the button below:

Registration Form

- Limited to: 100 participants
- Presentation given in English
- Deadline for registration: April 5, 2023, 10 am.

Pour vous abonner au Flash Info trimestriel de la Division, renseignez le formulaire «Besoin d'info?» sur le portail du Comité Spectroscopie d'Electrons.

Retrouvez-y également d'autres informations utiles : conférences, nouveaux périodiques, publications... !
